

MASTER OF FINE ARTS IN ART (STUDIO ART)

Web Site: <https://twu.edu/visual-arts/graduate-programs/studio-art/>

Degree Requirements

Total Semester Credit Hours Required

60 semester credit hours (SCH).

Prerequisite Coursework

Typically, an applicant for the M.F.A. in Art has completed an undergraduate degree in art and/or design, which is the preferred preparation for this degree. However, because of the interdisciplinary nature of our program, we value students with other backgrounds and skills, and the division graduate committee will consider students with other degrees, provided that they have a range of art experience including things such as coursework, professional experience, workshops, residencies, and other experiences demonstrating artistic knowledge and maturity, and a willingness to be flexible, and to do research to make up for any gaps. Applicants should be aware that at the graduate level, they will be expected to be largely self-directed in art-making processes.

Reviews

1. First Year Review (after at least 18 SCH and at least 1 year in the program) to include oral presentation of research to the faculty.
2. Second Year Review (after at least 36 SCH and at least 1 year after the first review) to include oral presentation of research to the faculty.

Possible review results include Pass (sufficient progress), and Probation (inconsistent progress) with the chance for Re-review during the next semester. Those who do not pass the Re-review will be dismissed from the program. After each of the main Reviews (not including Re-review), a committee of faculty members is formed to provide mentorship and guidance, and students must attend at least two meetings per each long semester with that committee.

Final Examination

An oral examination consists of a presentation and defense (to the Graduate Committee) of artwork made for the M.F.A. exhibition, with the examination usually occurring before the exhibition is up. It is required that a predominant majority of the work be complete at the time of the oral examination. The Graduate Committee's response to the oral examination also takes into account the quality of the Thesis document. The oral exam may be repeated twice.
