

# MASTER OF HEALTHCARE ADMINISTRATION

**Web Site:** <https://twu.edu/health-care-administration/graduate-degrees/master-of-healthcare-administration/>

## Degree Requirements

### Total Semester Credit Hours Required

45-54 semester credit hours (SCH).

Code	Title	SCHs
<b>Leveling/Foundation Courses (may be waived with advisor approval)</b>		<b>0-9</b>
HCA 5103	Foundations of Health Services	
HCA 5463	Research Methods for Managerial Decision Making	
HCA 5513	Financial Accounting in Health Care Administration	
<b>Health Systems Organization Sequence</b>		<b>6</b>
HCA 5393	Health Law and Ethics	
HCA 5633	Health Policy Analysis	
<b>Management and Leadership Sequence</b>		<b>12</b>
HCA 5223	Strategic Planning in Healthcare	
HCA 5343	Human Resources Management in Health Care Administration	
HCA 5883	Professional Portfolio and Healthcare Career Competencies	
HCA 5933	Capstone in Health Care Administration	
<b>Quantitative Methods Sequence</b>		<b>12</b>
HCA 5443	Operations Analysis in Healthcare Administration	
HCA 5473	Health Information Management	
HCA 5483	Population Health Management	
HCA 5493	Performance Measurement and Quality in Health Care Administration	
<b>Finance, Accounting and Economics Sequence</b>		<b>9</b>
HCA 5533	Management Accounting for Health Care Organizations	
HCA 5543	Health Care Finance	
HCA 5623	Economics of Health Care	
<b>Electives</b>		<b>6</b>
Select six semester credit hours of electives in consultation with advisor. Leveling/Foundation courses can not be used as an elective.		
<b>Total SCHs</b>		<b>45-54</b>

## Degree/Course Format

The MHA Program offers a flexible, year-round, sequenced, hybrid program that accommodates students to complete full- or part-time degree requirements. Three specially designed immersion courses (HCA 5883, HCA 5633, and HCA 5933) require students to attend a portion of class on the Dallas or Houston campus (see Immersion Sequence description to follow). The balance of courses are offered 100% online. Online courses may or may not include required or optional

“live” evening courses via synchronous video. All required remote or in-person meeting dates are communicated in the TWU Class Schedule (<https://webadvisor.twu.edu/WebAdvisor/WebAdvisor/?TOKENIDX=3379389169&type=M&constituency=WBST&pid=CORE-WBST>).

Courses are sequenced to support student success using four levels: Foundation, Levels I, II, and III. Students are required to fully complete a level (or be enrolled concurrently in the final courses in a level) before they can enroll in the subsequent level.

## MHA Program Faculty/Staff

The MHA program recruits a blend of full-time tenured or tenure-track, visiting, and adjunct faculty. The MHA Program strives to blend industry expertise with student-centered teaching and rigorous scholarship to prepare students for career success. An introduction to the MHA Faculty/Staff highlights the careers, teaching, and research experience these professionals bring to their students.

## Foundation Courses/Placement Assessment

The MHA Program attracts students with highly diverse backgrounds, experiences, and interests. The foundation courses are the first level of preparation for specialized study in Health Care Administration and serve as “leveling” courses to ensure that our diverse student body enters the level I-III curriculum prepared for success.

The Program offers three Placement Assessments to all admitted students. Admitted students are invited to complete 1, 2, or all 3 of the assessments to determine their placement in the curriculum or where they will start the program. A 70% or higher score on these assessments will allow students to skip one or more of the Foundation Courses.

## Immersion Sequence

Three MHA courses (HCA 5883, HCA 5633, and HCA 5933) are designed as hybrid courses (hybrid = online + in-person course) that require all students to travel to either Dallas or Houston to participate in in-person learning experiences with program faculty. HCA 5883 and HCA 5933 will require participation in a 3-day extended weekend and HCA 5933 will require students to participate in-person for 3 days during the scheduled term on a TWU campus or another approved off-site location.

Online pre and post-work will be required to prepare for the course and to wrap up final assignments. These special courses will immerse students in graduate-level, dynamic courses that are designed to support student advancement on competencies that benefit most from in-person instruction.

## Electives

Students, in consultation with a faculty advisor, will select at least six semester credit hours of approved elective courses in order to obtain additional breadth or depth in a particular field of Health Care Administration study. A study abroad elective is also available. Electives from other TWU departments or other Universities may be approved with permission from the faculty advisor if they meet the criteria as related to the study of health care administration and the student's career goals. However, transfer credits from other Universities or Departments are subject to limits established by the graduate school.

## Internship/Fieldwork Opportunities

Internships and field experiences are available with healthcare organizations. They are designed to provide students with the opportunity to integrate and apply knowledge and skills from their course experiences. While an internship or fieldwork is not required, it is strongly

recommended for all individuals who lack health care experience or whose experience is primarily technical or clinical. The decision regarding whether the internship or fieldwork should be included as one of the elective courses is made jointly by the faculty advisor and student at the completion of 12 semester credit hours of study. In addition, many courses include fieldwork projects, tours, and assessments of local healthcare organizations. A maximum of three semester credit hours may be earned in internship or fieldwork and applied toward the degree. In order to receive academic credit for an internship or fieldwork the student must contact his/her faculty advisor and complete the necessary documentation with the HCA internship/fieldwork coordinator prior to applying or accepting an internship or fieldwork assignment.

## **Professional Development Portfolio**

Each MHA student is required to develop and maintain a professional portfolio throughout their time in the Program. The portfolio is a professional development tool students use to monitor their achievements, strengths, and areas for development against the TWU MHA Competency Model (<https://twu.edu/health-care-administration/mha-competencies/>). Each student presents their portfolio to the faculty or their faculty advisor at the conclusion of each of the three courses in the Immersion Sequence. Faculty or faculty advisors work with students to develop professional development plans to support their career goals.

## **Additional Grading Requirements**

In addition to the general University grading requirements, the HCA Program limits the number of courses in which a grade of C is made in HCA program-specific courses to two. If a grade of C is made in a third HCA program-specific course, then regardless of the cumulative grade point average, the student will be dropped from the HCA Program. Since this is an HCA grading requirement and not a University requirement, the student may choose to apply to another TWU program.

The two C Rule applies even if the student retakes a course in which the initial grade was a C.
