

MASTER OF BUSINESS ADMINISTRATION (ACCOUNTING)

Web Site: <https://twu.edu/accounting-finance/graduate-programs/mba-accounting/>

The MBA with Accounting Emphasis is designed for students who want to learn the basics of financial management. This program will cover contemporary issues in accounting for managers: cost control, budgeting, breakeven, project proposals, and many other essential tools all managers use.

Note: This program does not prepare students for the CPA Exam or other professional accounting designations. If you are interested in becoming a CPA, CMA, CIA, or other type of accounting professional, please review the Master of Science in Accountancy (<https://catalog.twu.edu/graduate/business/accounting-finance/accountancy-ms/>) program.
