

POST-MASTER'S CERTIFICATE: NURSING EDUCATION

Web Site: <https://twu.edu/nursing/certifications/>

Individuals who have a master's degree in nursing may be considered for admission to a Post-master's Certificate in Nursing Education. A nurse educator certificate prepares a registered nurse with advanced education, including advanced clinical training in a health care specialty. Nurse educators work in academic settings, for clinical institutions, and in the community. Nurse educators may work as a member of an academic faculty, as a Clinical Nurse Educator, Staff Development Officer, or Continuing Education Specialist. Nurse educators are responsible for preparing and mentoring current and future generations of nurses, strengthening the nursing workforce, serving as role models, and providing the leadership needed to implement evidence-based practice.
