

# MASTER OF SCIENCE IN NURSING (FAMILY NURSE PRACTITIONER)

---

**Web Site:** <https://twu.edu/nursing/master-of-science-in-nursing-msn/family-nurse-practitioner-fnp/>

A Nurse Practitioner (NP) is an Advanced Practice Registered Nurse (APRN) who holds a master's or doctoral degree in a specific population focus. These include family, adult-gerontology (primary or acute care), neonatal, pediatrics (primary or acute care), women's health, or psychiatric-mental health populations. Texas Woman's University offers programs for family, adult-gerontology (primary and acute care), pediatric (primary care), women's health, and psychiatric-mental health nurse practitioner tracks.

The Family Nurse Practitioner (FNP) provides care for patients of all ages and within many settings. The FNP role focuses on health promotion and health maintenance of patients while also managing both common acute and chronic health conditions across the lifespan.
