

MASTER OF SCIENCE IN NURSING (WOMEN'S HEALTH NURSE PRACTITIONER)

Web Site: <https://twu.edu/nursing/master-of-science-in-nursing-msn/womens-health-nurse-practitioner-whnp/>

A Nurse Practitioner (NP) is an Advanced Practice Registered Nurse (APRN) who holds a master's or doctoral degree in a specific population focus. These include family, adult-gerontology (primary or acute care), neonatal, pediatrics (primary or acute care), women's health, or psychiatric-mental health populations. Texas Woman's University offers programs for family, adult-gerontology (primary and acute care), pediatric (primary care), women's health, and psychiatric-mental health nurse practitioner tracks.

The Women's Health Nurse Practitioner (WHNP) provides care for women extending from adolescence through adulthood. The TWU WHNP program prepares graduates to provide well-woman care, high-risk prenatal management, family planning, care during menopause, and fertility care.
