

DOCTOR OF PHILOSOPHY IN SPECIAL EDUCATION

Web Site: <https://twu.edu/teacher-education/graduate-programs/special-education/>

Marketable Skills

Marketable skills prepare students for success in a variety of professional settings. Developed through academic coursework, co-curricular engagement, and extracurricular involvement, these skills include communication, critical thinking, teamwork, ethical reasoning, adaptability, and digital literacy. Whether directly related to a student's major or serving as complementary strengths, marketable skills enhance career readiness and reflect TWU's commitment to producing graduates who are prepared to thrive in today's dynamic workforce.

1. Effectively manage leadership opportunities related to the teaching, service, and scholarship efforts of those who support the education of students with disabilities and their families.
2. Accurately design, implement, and evaluate independent research related to special education and disseminate research results to the appropriate audience in an effort to bridge the research-to-practice gap in the field of special education.
3. Articulate and take advantage of service opportunities where their professional expertise is needed and valued, thus improving the education and life outcomes for learners with disabilities and their families.
