

ACCELERATED BACHELOR OF SCIENCE IN HISTORY / MASTER OF ARTS IN HISTORY

Web Site: <https://twu.edu/history/undergraduate-programs/>

The Bachelor of Science degree in History offers a sound basis for proceeding to graduate programs in the field, to law school admission, or to careers in public service. In addition, the degree provides a background for professional preparation in the following fields: library science; teaching at middle school, secondary school, or college level; work with archives, historical associations, museums or national parks; journalism; criminal justice administration; legal assistance; law school; foreign service, non-profit, administrative, and federal and state civil service.

Marketable Skills

Marketable skills prepare students for success in a variety of professional settings. Developed through academic coursework, co-curricular engagement, and extracurricular involvement, these skills include communication, critical thinking, teamwork, ethical reasoning, adaptability, and digital literacy. Whether directly related to a student's major or serving as complementary strengths, marketable skills enhance career readiness and reflect TWU's commitment to producing graduates who are prepared to thrive in today's dynamic workforce.

1. Employers want employees who are organized and complete projects on time. The B.S. in History develops these skills by requiring students to read, research, and write independently, and present research in a public forum (orally or in written form) with fixed deadlines.
2. Employers want employees who have solid writing and compositional skills. The B.S. in History develops this skill by requiring students to engage in clear, persuasive, grammatically, and stylistically correct writing projects (research papers, policy briefs, reaction papers, memos, position papers, etc.).
3. Employers want employees who have solid oral communication skills. The B.S. in History develops these skills by requiring students to present their research in a public forum (that is, in front of a class of peers) using visual aids (slides, charts, graphs, etc.) or to role-play in a public forum requiring extensive research on that role.

- Undergraduate students may enroll in no more than 6 SCH of graduate coursework in each semester or term.
- No undergraduate-level course may count toward a graduate degree.
- Minimal criteria for admission will include a cumulative undergraduate GPA of at least 3.0. Academic components may set higher requirements for their program.
- Once admitted to an accelerated program, students must maintain a 3.0 GPA throughout the remainder of their baccalaureate degree, or their admission to the accelerated graduate program may be revoked. Academic components may set additional requirements for their programs.
