Marketable Skills

Marketable skills prepare students for success in a variety of professional settings. Developed through academic coursework, co-curricular engagement, and extracurricular involvement, these skills include communication, critical thinking, teamwork, ethical reasoning, adaptability, and digital literacy. Whether directly related to a student's major or serving as complementary strengths, marketable skills enhance career readiness and reflect TWU's commitment to producing graduates who are prepared to thrive in today's dynamic workforce.

1. Function in multidisciplinary teams
2. Apply ethical principles to provide leadership in promoting advocacy, collaboration, and social justice within the health care system and to act in a manner reflective of professional values and value-based behavior
3. Use written, verbal, non-verbal, and emerging technology to communicate effectively and deliver quality patient care in a variety of health care settings
4. Apply basic organizational and systems leadership for quality health care and patient safety.
5. Identify, evaluate, and apply scientific evidence, clinical judgment, interprofessional perspective, and patient preference to the practice of nursing
6. Knowledge of healthcare policies, both financial and regulatory, and how they impact nursing practice and the healthcare system
7. Clinical reasoning within the context of patient-centered care across the lifespan, to diverse patients, that reflects ethical values
