The Division of Teacher Education offers undergraduate coursework toward all initial teaching certifications in the areas of Education, Early Childhood Education, Special Education, and secondary education content.

To meet the state requirements for teacher certification, undergraduate students may select a major in the College of Professional Education (Bachelor of Science in Education) or a major in the College of Health Sciences or the College of Arts and Sciences and complete a minor in Education.

No grade below a "C" will be accepted for any course in the major or minor content area.

Students who meet the state requirements can be fully certified at graduation, and they are prepared to work with diverse populations, including students from varied backgrounds, English language learners, and students with exceptional needs.
